Vehicle Identification + Smart App Tracking

- Each guest vehicle is registered before charging
- The charger reads the vehicle's unique ID
- Charging sessions are automatically recorded
- Energy usage is tracked per vehicle
- Data available via the MX7 app dashboard

Why MX7 is Ideal for Hospitality Businesses

-  **Accurate Guest Billing**
 - Charge guests based on actual energy used
 - Fair and transparent cost recovery
-  **Simple Administration**
 - Automated usage reports
 - Clear tracking for accounting & VAT records
-  **Prevent Energy Misuse**
 - Stops non-guests or neighbours from charging
 - Only approved vehicles can access power
-  **Added Guest Value**
 - Attractive amenity for EV-driving guests
 - Supports eco-friendly positioning
 - Competitive advantage in listings
-  **New Revenue Opportunity**
 - Turn EV charging into a managed, measurable service
