

Pod Power by EDF

Exclusive home EV tariff

We're part of the EDF family, Britain's largest generator of zero-carbon electricity, and can offer an exclusive EV tariff.

Get EDF's cheapest EV tariff and enjoy 7 hours of low-cost electricity every night from 11pm–6am. Exclusively for Pod customers.

Why Pod Power by EDF?

7 hours off-peak electricity for 6.49p/kWh

One low nightly rate to run your car and home.

Save £450+ a year on EV charging

That's real money back in your pocket – every year.

Your price. Fixed for 12 months.

No hidden fees. No nasty surprises. Just the rate you signed up for.

Earn up to £100 a year with Pod Rewards

You're already saving on energy. Now earn on top of it.

Accessing the Pod Power by EDF tariff is easy.

If you're already an EDF customer – great news, you're all set. Just switch to the Pod Power EV Exclusive tariff in your EDF account.

All information correct as of 01/06/2026.

New to EDF?

Joining the tariff is quick and easy. If you don't already have a smart meter, EDF will arrange installation of one for you when you sign up.

1. Sign up to EDF online. During sign-up, select the Pod Power EV Exclusive tariff.
2. Once your supply goes live and your smart meter is connected to EDF's system, you'll be automatically moved onto the Pod Power tariff.
