

# ARD-1-63-TP-SPD

Three-phase connection unit with auto reset isolator and Type 2 SPD, suitable for 1 x 63A TPN load

The matt:e ARD connection centres with unique 5 pole auto reset device and built in Type 2 SPD.

Simple to install, dedicated EV connection centres with built in O-PEN® technology that allows for the connection of EV charge points to the PME earthing facility without the use of earth electrodes.

Helping to facilitate compliance with BS:7671. 2018 Amendment 2, 2022 Regulation 722.411.4.1.(iii).

## Product Features and benefits

- Built in O-PEN® technology
- NO EARTH ELECTRODES REQUIRED
- Helps reduce disruptive and costly groundworks
- Removes the risk of striking buried services
- Simple wire in wire out connection
- Complete with Type 2 SPD
- For 1 x 63A TPN load
- Mild steel IP4X enclosure
- Standard 1 Year parts warranty.

| Specifications           |                          |
|--------------------------|--------------------------|
| Input Volts              | 400V 50Hz                |
| Max Load                 | 63amps                   |
| Cable Entry Facility     | Top and bottom           |
| Terminal Capacity        | 25mm <sup>2</sup>        |
| Dimensions ( H x W x D ) | 380mm x 300mm x 120mm    |
| Weight                   | Approximately 7kG        |
| Enclosure                | Mild Steel Powder Coated |
| Ingress Protection       | IP4X                     |
| Warranty                 | 1 Year                   |
