

HBC

TESIDA "VIDA TESIDA"

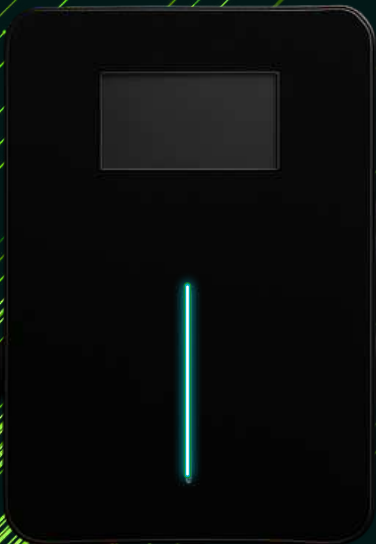

HBC is a leading UK provider of EV charging solutions. Starting with home installations, we've grown rapidly to serve businesses of all sizes—from independent pubs to major hotel chains. Our mission is simple: to make electric vehicle charging easy, reliable, and future-ready.

TESIDA R4

The Tesida R4 is HBC's latest smart charger, designed for modern homes and businesses moving toward clean energy. Its compact design and intuitive touchscreen deliver a seamless user experience with full control.

Powered by Monta's intelligent platform, the R4 offers easy scheduling, real-time energy insights, and solar integration—helping users optimise self-generated power and cut costs. With optional RFID tap-to-charge, it's flexible, future-ready, and built to perform.

Powering Smarter charging with **MONTA**

At Home & Business Charging, we've partnered with Monta—to deliver seamless charging experiences and smart control. With over 200+ chargers managed nationwide, Monta enables our clients to efficiently monitor, monetise, and maintain their EV infrastructure.

Whether you're a business looking to provide charging for your fleet, staff, or the public, Monta gives you full control—allowing for custom pricing, live status updates, and remote management. It's ideal for any sector aiming to turn EV charging into a new revenue stream.

Power Your Drive with Monta
Monta is the smart platform that connects your home EV charger to a world of intelligent features. Schedule charging, track costs, share access, and take control—right from your phone. Seamless, secure, and built for your lifestyle.
